

This is in regards to HB 5427: An Act Concerning the Shared Clean Energy Facility Pilot Program

I am in favor of discontinuing the pilot shared solar programs in favor of moving forward with a full blown shared solar program as recommended by the Connecticut Academy of Science and Engineering.

Furthermore, I urge you to change the buy back provision from 15 years to 25 or 30 years.

Please put the interests of the environment and the people of Connecticut before the interests of the utility companies.

Thank you.
